COMPANY: CloudFerro

POSITION: Marketing Content Manager

WEB: <https://cloudferro.com/>

SHORT BIO / DESCRIPTION

Content Manager at CloudFerro. A graduate of GIS at the Military University of Technology in Warsaw. An expert in the use and processing of Earth observation data. She gained professional experience in the EO sector working on projects on the Polish and foreign markets, for such companies as Esri Poland, Hexagon Geospatial and Joint Research Centre European Commission. Loves to observe the Earth from space.

CREODIAS

WEB: <https://creodias.eu/>

DESCRIPTION

CREODIAS is a cloud computing environment with an integrated repository of Earth Observation satellite data that exceeds 20 petabytes. This is one of DIAS (Data and Information Access Services) platforms, built and operated by CloudFerro on behalf of ESA, as part of the Copernicus program. CREODIAS design grants third party users an easy access to a wide selection of data with on-site processing and guarantees simplicity, scalability and repeatability of user applications and services.

CloudFerro

WEB: <https://cloudferro.com/>

DESCRIPTION

CloudFerro provides **cutting-edge** cloud services. The company delivers and operates cloud computing platforms for demanding markets, such as the European space sector, climate research and science. Its broad experience and in-depth expertise include storing and processing **big data sets**, such as multipetabyte repositories of Earth Observation satellite data.

CloudFerro has been trusted by leading European firms and scientific institutions from various big-data-processing market sectors, including the European Space Agency (ESA), EUMETSAT, the European Centre for Medium-Range Weather Forecasts (ECMWF), Mercator Ocean International, German Aerospace Centre (DLR), the EGI, to name a few.
