

Franck Ranera

COMPANY: SERCO

POSITION: Business Development and Strategic Partnership

WEB: franck.ranera@serco.com

SHORT BIO / DESCRIPTION

Franck Ranera is member of the leadership board of SERCO Italy. He cumulates 25 years of experience in EO satellite data exploitation. He spent 10 years in ESA and 10 years in Airbus Defense and Space where he led the initial version of the Copernicus Emergency Management Service and has been responsible of the Peruvian Space program. He joined SERCO Italy in 2018 to lead the business development around ONDA DIAS, convinced that Cloud based Digital platforms are the future of EO data exploitation.

SERCO (Italy)

WEB: www.serco.com/eu

DESCRIPTION

Serco Italia S.p.A. is part of Serco Europe (of Serco Group), a trusted partner of European governments, institutions and International Organisations, delivering public services and employing 1000+ people across nine countries. The company has been operating in Space for the past 30 years, providing highly specialised services for public agencies and organisations, namely, the European Space Agency (ESA), the Italian Space Agency (ASI), the German Aerospace Center (DLR), the European Environmental Agency (EEA), CERN and many others public institutions. The company offers operational and engineering support with core competences in IT systems and Data exploitation in various thematic areas (agriculture, atmosphere, cartography, disaster management, geology...).
