AGRESTA S.COOP.

WEB: <https://agresta.org/en/>

AGRESTA cooperative was originally funded by 10 forestry engineers. AGRESTA is an environmental company (SME), established in 2000, and specialized in forestry, natural resources management and the applications of new technologies to the environment. The legal figure is workers cooperative SME, where most of the workers are company partners and the decision-making mechanism is carried out by a general assembly. Nowadays, we are more than 55 professionals from different profiles, most of them with more than 10 years of experience.
