

Ludovic Augé

COMPANY: SOBLOO, AIRBUS DEFENCE AND SPACE

POSITION: DIAS SOBLOO PROJECT AND PRODUCT MANAGER

WEB: <https://sobloo.eu>

SHORT BIO / DESCRIPTION

I have a background in thematic domains (Precision Agriculture, Environment Monitoring, Maritime Surveillance and Index Based Insurances topics), development experience in Earth Observation Imagery and IA , with a master degree in Applied Mathematics.

From this experience, I keep a strong focus on Customer needs and Operations, while maintaining a technological scanning.

Always happy to support implementation of users' insight, see how technology can serve your needs (not the opposite ;-) and helping find the right place in a moving ecosystem !

Sobloo

WEB: <https://sobloo.eu>

DESCRIPTION

Sobloo is a unique place where to benefit from the long-standing history of Copernicus with Airbus, in various aspects of earth observation, space and defence alongside with a consistent cloud and services offer.

Partnerships and cooperation are at the core of our growth plan; leveraging our partners and customers help build a network of expertise and reach an extended community, putting our imagery, data and services into the hands of even more users.

We want to trigger cross-fertilization by providing a comprehensive set of satellite imagery ad services to startups, labs, institutions and universities, allowing them to access first class imagery, by using Sobloo.

Today, Airbus is supporting the GO2SPACE Hackathon.

Go2Space-HUBs has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 870370.
