

Mónica López López

COMPANY/ENTITY: CDTI – Center for the Development of Industrial Technology

POSITION: Spanish representative at the Copernicus Committee/Spanish Delegate at ESA PBEO

WEB: www.cdti.es

SHORT BIO / DESCRIPTION

Engineer specialized in Remote Sensing. My professional experience has been focused on remote sensing and Earth observation. I started my professional career in this field in France, in the company Spot Image, dedicated to the commercialization of satellite images. After several years in private companies working as an engineer specialized in remote sensing, I started working at the CDTI where I have been working for fifteen years. At CDTI I have been involved in Earth observation space programs both nationally and internationally. Currently I take parte of the Spanish delegation to ESA in the Earth observation committee and I am also a Spanish representative in the Copernicus Committee of the European Commission.

CDTI

WEB: www.cdti.es

Public Business Entity, answering to the Ministry of Science and Innovation, which fosters the technological development and innovation of Spanish companies.

It is the entity that channels the funding and support applications for national and international R&D&i projects of Spanish companies.

CDTI is the focal point for space activities in Spain: national programmes, ESA, EU EUMETSAT and bilateral programmes.

Go2Space-HUBs has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 870370.
